

THE WILMINGTON POST.

W. P. CANADAY, Proprietor.

WILMINGTON, N. C.

SUNDAY MORNING, MARCH 18, 1893.

The smartest thing said about Garfield's Cabinet was by Beck of Kentucky: Speaking of neglecting to confirm Bob Lincoln as Secretary of War, Beck said that to refuse to do it would throw the Democratic party out of power for the next twenty years.

They have in Nevada a wood, which dry, is hard as boxwood, fine grain, deep red color and very heavy. For fuel it creates intense heat, and the only objection to it for firewood is that it will burn out the hardest iron and crumble the most impenetrable fire-clay.

French laborer gets the essence of beef for a cent a bowl, hot coffee with milk for a sou a cup; ten cents pays for a full meal with wine; a sixpence pays for a cushioned seat at a theatre; and French economy and frugality is such that there is no such pinching process as throws away life in America.

The great tunnel under the Hudson river (New York city) is being pushed, and five feet a day is gained. The entrance will be on Broadway, between Rector and Houston streets. Several hundred feet have been constructed.

Our Cape Fear region at the present time is full of seismisms. Our Mayor has been acting at cross-purposes, inasmuch as one morning there was a great rage because somebody was about to rebuild the old market, and very soon our Mayor was seen walking around the street in company with the sheriff, &c., &c., &c. Right on the heels of this the *Review* announced that Colonel Waddell had been employed by the Cape Fear Navigation Company to go to their counsel to Washington to protect their rights against the machinations of Judge Russell's act selling them out, and ended by selling them out himself for \$30,000. And when those of us who are simple were giving credit to Senator Ransom for getting up the conference bill and raising the appropriation \$10,000, as the House left it, to \$170,000 as the conference committee had left it. Away went the mercantile interests of the Cape Fear as against the corn crackers, away faded the wretched brow of poor Matt Ransom, up Salt River went the ancient vested rights and all the glories of slack-water navigation, and what was worse down came the capital that Canaday and Shackelford had been striving for in the late canvass, on rushed this new dispensation of lavish Congressional appropriations, including not only Seward's Channel, and the whole noble volume of the historic Cape Fear, but all its little tributaries.

The venerable Alexander H. Stephens discovered that there were announced certain concealed principles of preservation in Garfield's inaugural address to the unfortunate eleven seated states, and he proceeded to unfold principles thus: "Ours is a complex system of government, the like of which has no prototype in history. The supremacy of the central government over all subjects intrusted to it by the people in the Constitution is absolute. This, President Garfield maintains, is right in principle, and those powers of local self-government which are reserved by the people he also very clearly maintains, so that this wonderfully complex system may be administered for the welfare, happiness and prosperity of the entire people throughout the length and breadth of the land. The most striking feature on this point is that in which he advises the forgetting in the future those differences which have so much disturbed the harmony of the past and are pressing forward toward those new questions upon which the future prosperity and well-being of the entire country is involved." The venerable Stephens has competitors here on the Cape Fear where it is discovered frequently that Alexander Hamilton and Daniel Webster were secessionists.

NORTH CAROLINA'S APPROPRIATION.

Thanks to Senator Ransom after all our other members were too lazy to accomplish anything, he got through by his own wit and genius, all the appropriations that were necessary. The commerce and business of this city owe many thanks to the Senator.

Improving Cape Fear River, North Carolina, from the ocean to Wilmington, \$140,000. Improving the Cape Fear River from Wilmington to Fayetteville, North Carolina, \$30,000. Improving Currituck Sound, Coanok Bay, North River and Bar, N. C., \$30,000. Improving French Broad River, N. C., \$5,000. Improving New River from its mouth to head of navigation, N. C., \$30,000. Improving Pamlico and Tar River, N. C., \$5,000. Improving Sampson River, N. C., \$1,000. Improving Trent River, N. C., \$5,000. Improving Yadkin River, N. C., \$12,000. Improving Contentment Creek, N. C., \$10,000. Improving Broad River, N. C., \$30,000. Improving Eilington River, N. C., \$3,000. Improving Waccamaw River, S. C., from its mouth up to Waccamaw Lake, N. C., \$10,000. Improving Town Creek, in North Carolina, \$1,000.

There is no probability that milking either bull or cow before she calves will do her any harm, while neglecting or objecting to do it may do serious injury.

THE CABINET.

In making up his Cabinet the first time the new President in a manner acts a theatrical part. His advisers are all named at once, and read out, so that the public see them all at once. They come on the stage from behind the scenes, so to speak, as the star actors parade before the auditor. So an opinion has to be formed of them at once. Garfield was not behind his earlier predecessors in acting a dramatic part. He had his star actor in the person of his chief antagonist, Blaine, as did Lincoln in the person of Seward.

Lincoln did not wait for Seward's indignation to subside before he offered the Premiership to him. Chase, who was his second competitor, he put in the next most important position. When we look back to the early days of the rest of Lincoln's Cabinet, except the Secretary of the Navy, who summoned squadrons from distant seas as if by magic, and stood by to the last, we remember how indifferent the rest of his Cabinet were. We may take the opportunity here to refer to the graceful compliment to Robert T. Lincoln, the only surviving son of his great ancestor, by making him Secretary of War. It is true that the younger man is not Stanton, but his selection recalls the fiery trials of those "two twin turbanets of war," Lincoln and Stanton, and spreads a classic flavor over the new administration.

The selection of Senator Windom of Minnesota as Secretary of the Treasury is full of significance. He was the dark horse, with ten inflexible votes behind him and presumptively more. The stolidity of those ten votes became ominous. He himself has now become the legitimate successor of his great financial predecessor, and in addition fills with satisfaction the broad trans-Allegheny region, with its growing clusters of empires, and in which were born four or five of the present Cabinet, as well as the President himself. It may well be considered too that this fresh scion from the upper forks of the Father of Waters, fairly comprehends the genius of all the American people.

There would be reason for blame if we omitted to mention Judge Hunt, the New Secretary of the Navy. The south has had only 16 Secretaries of the Navy since the foundation of the government. The north has had 20. There have been seven distinct administrations in which the south has had no Secretary of the Navy, and North Carolina has had four out of the 16—John Branch, George E. Badger, William A. Graham and James C. Dobbin. There is nothing to be said against Judge Hunt, as respects his fitness for the position to which he is designated. He is a Republican of the most approved sort, and has always been a Union man, although he is of southern raising back into the generations. It is so much better treatment than anything southern Republicans had reason to expect that they have been brought into good temper.

There is commendation on all hands for Thomas L. James, the Postmaster-General. He never seems to have filled any place which he did not adorn, and especially did credit to himself in the largest postoffice in the nation. Senator Kirkwood like Blaine and Windom, resigned from the Senate for a Cabinet position, having been eminent in two states. And lastly MacVegh, traveling along in the line of such lawyers as Cushing, Evans and Jerry Black, will not be likely to disabuse the long and illustrious line.

It is not strange, therefore, that one uniform acclaim of approval goes up from one end of the nation to the other in behalf of the President's selections for a Cabinet. May the event fulfil the anticipation.

The Massachusetts Society for the University Education of Women has helped six students this year in their University courses. The society has also done an excellent work in providing pleasant social influence for those students who are strangers in Boston.

The Texas Legislature is now considering a plan for providing school money by leasing the public school lands—no lease to be for a longer term than a year, and not a less sum than \$12.80 a section. This plan also makes it a misdemeanor to graze cattle on unleased school lands—a thing which has long been done.

When a President is inaugurated he knows the open pages of a Bible as he takes the oath, and somebody is always on hand to note the passage touched by his lips. Garfield kissed the first six verses of the 21st chapter of Proverbs, which are as follows:

The king's heart is in the hand of the Lord, as the rivers of water: he turneth it whithersoever he will.

Every way of a man is right in his own eyes: but the Lord pondereth his hearts.

To do justice and judgment is more acceptable to the Lord than sacrifices. An high look and a proud heart, and the plowing of the wicked is sin.

The thoughts of the diligent tend only to peace; but of every one that is hasty only to war.

The getting of treasures by a lying tongue is a vanity tossed to and fro of them that seek death.

General Garfield would do well to cut out these verses and paste them in his hat. All the wise men of the earth could give him no better advice.

MEMBERS OF THE CABINET.

WILLIAM G. BLAINE.

SECRETARY OF STATE.

Mr. Blaine is an American, a member of the Senate from Maine, and a member of the House of Representatives from 1855 to 1861. He was a member of the House of Representatives from 1855 to 1861. He was a member of the House of Representatives from 1855 to 1861.

WILLIAM H. HUNT.

SECRETARY OF THE NAVY.

Mr. Hunt is a native of South Carolina, and was educated at Yale College. He was a member of the House of Representatives from 1855 to 1861. He was a member of the House of Representatives from 1855 to 1861.

WILLIAM L. JAMES.

POSTMASTER-GENERAL.

Mr. James was born in Utica, N. Y., in 1831, and was a pupil in the Utica Academy until he was fifteen years of age. His ambition was to become a newspaper man, as the best means of reaching that end he was apprenticed to Wesley Bailey, then the well known Abolition Editor of *The Liberty Press*.

WILLIAM WINDOM.

SECRETARY OF THE TREASURY.

William Windom the Secretary of the Treasury was born in Belmont county, Ohio, May 10th, 1826. His parents were from Virginia, whence they had emigrated, to Ohio. He went to the bar at the age of 23, and in 1850 removed to Winona, Minnesota, where he at present resides. He was a member of the 30th, 37th, 38th, 39th, and 40th Congress, when he was elected to the Senate and is now on his second term.

At the end of his fifth term in Congress Mr. Windom positively declined the re-nomination that was urged upon him. He was soon after appointed to the United States Senate to fill the unexpired term of S. S. Norton. Subsequently he was elected for ten years, expiring 1877, when he was re-elected by the unanimous vote of his party.

At the Republican National Convention of 1880, Senator Windom was a candidate for the Presidency. He was elected to the Presidency, and was elected to the Presidency, and was elected to the Presidency.

From early life he was a close adherent to the doctrines of Henry Clay, and devoted himself to a treatment from that standpoint of all questions relating to the material interests of the public.

At the end of his fifth term in Congress Mr. Windom positively declined the re-nomination that was urged upon him. He was soon after appointed to the United States Senate to fill the unexpired term of S. S. Norton.

His administration of the office has worked almost a revolution in the postal service of this country. He has introduced great improvements, doubled the number of mail trains, and increased the efficiency of the office out of pocket, made merit the test of appointment and promotion, and greatly increased the revenues of the office. The system perfected by Mr. James has attracted the notice of foreign governments, who have sent experts here to study it. In politics Mr. James has not been actively identified with either wing of the Republican party in this state.

WAYNE MACVEG.

ATTORNEY-GENERAL.

Wayne MacVegh was born at Phoenixville, Penn., in 1833. After preparing himself at the school in Pottstown, he entered Yale College and was graduated in the famous class of '52, standing tenth in a class of 123. On leaving college Mr. MacVegh entered the law office of James J. Lewis, at West Chester, Penn., and soon became well known as an able lawyer. He advanced steadily until he stood high in favor with the bar of the state and of the United States Supreme Court. He entered the volunteer service when the war broke out, and served as major of a cavalry regiment, which was engaged in guarding the Pennsylvania border. He was compelled to resign his command as he lost his health. In 1868 he was chairman of the Republican Central Committee of Pennsylvania, and in 1870 he was elected to the United States Senate.

ROBERT T. LINCOLN.

SECRETARY OF WAR.

Robert T. Lincoln, the first son of Abraham Lincoln, was born in Sangamon county Illinois, fitted for college at Phillips Academy of Exeter New Hampshire, graduated at Harvard Law School, and has ever since practiced his profession in Chicago.

As a lawyer, Mr. Lincoln has been successful, and has built up an extensive practice. He is a member of a firm which represents the interests in the West of many Eastern insurance companies which have loaned large sums of money in Illinois and Western States. The management of this business has developed in Mr. Lincoln a superior executive ability and a capacity for the management of large interests involving many intricate details. Before the Chicago Convention Mr. Lincoln was an ardent advocate of the nomination of General Grant, and he presided at the famous Grant meeting held in Chicago a few days before the nomination.

SAMUEL J. KIRKWOOD.

SECRETARY OF THE INTERIOR.

Samuel J. Kirkwood leaves his seat in the Senate to become Secretary of the Interior Department. He was born in Hartford county, Md., December 18, 1813, and received an academic education in Washington City. He moved to Iowa in 1855, he engaged in the double business of farming and selling near Iowa City. In 1856 he was elected to the state Senate, and served through the last session held at Iowa City and the first held at Des Moines. In 1859 he was chosen Governor over A. C. Dodge (Dem.) by a majority of 2,964. His administration was satisfactory at that critical period, that he was re-nominated without opposition and re-elected.

WILMINGTON, N. C.

SUNDAY MORNING, MARCH 13, 1888.

Occultation of Venus.

A correspondent of the Herald called attention to our yesterday's issue to the beautiful spectacle to be presented this evening by the western sky, of the moon being in conjunction with Jupiter, Saturn and Venus. Venus will, about twenty minutes past eight P. M. be very near the new moon—so close, in fact, that, according to calculations by Professor Marth, the brilliant star will be occulted in the Arctic regions.

The phenomenon of occultation is of interest as affording opportunity to further solve the question of a lunar atmosphere. In the winter of 1853-54 the second American Arctic expedition, under Kane, observed three occultations of Saturn by the moon when in their winter quarters near the seventy-eighth parallel. In an occultation of Saturn by the moon May 8, 1859, at the disappearance the dark lunar edge was sharply defined on the Saturnian rings and belt without the slightest distortion of their figure or extension of light along the moon's limb. This, as many other occultations, confirms the view that there is no lunar atmospheric envelope. But further confirmation of the fact by the Jeanette's officers observing the occultation of Venus this evening would have an interest for astronomers.

A very simple remedy—and said to be effective—to rid canary birds of mites is to place a clean white cloth over the cage at night. The vermin leave the bird and gather upon the cloth. They are very small, red, and scarcely discernible with the naked eye.

THE GENUINE

DR. C. McLANE'S

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND BILIOUS HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are constipated, sometimes with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a fair trial.

For all bilious derangements, and as a simple purgative, they are unequalled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid, with the impression DR. C. McLANE'S LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signature of C. McLANE and FLEMING BROS., on the wrapper. Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLANE, spelled differently but same pronunciation.

THE WILMINGTON POST.

WILMINGTON, N. C.
SUNDAY MORNING, MARCH 13, 1881.

STATE NEWS.

The legislature has voted to adjourn on Monday next.

The new School Bill which passed the House by a unanimous vote on the 3d inst., levies a tax of 12 1/2 cents on the \$100 valuation of property and 372 cents on the poll. This is an increase of fifty per cent. over the present rate.

Injustice has been done to John Newell colored member of the House on account of his being charged with drawing his pay twice. A committee having been appointed to investigate the matter traced the forgery to Watson the member of the House from Edgecomb.

The Legislature has passed the bill prohibiting the sale or purchase of any spirituous liquors, except wine, under heavy penalties. The act enforces total abstinence. It is to be submitted to the people for ratification in August, and if adopted by a popular vote, will go into effect on the 1st day of October.

The News also gives notice to Egypt if it has "any more obelisks" to give away, and somebody will pay the expense of bringing it to Asheville, as Vanderbilt did of bringing this one to New York, we suggest that it be placed on Battery Point which is 2700 feet above the level of the sea, as we understand it.

The Asheville News puts a black mark on the back of one Thomas O. Morgan, a lumber dealer who, it says, got in debt to everybody that would trust him, shook the dust from his feet and left last Friday morning on the train, without even as much as saying good-bye to his numerous creditors. He told some one that he was going to see his brother in Arkansas, or Arkansas was just you disease to take it.

The Laurinburg Enterprise, which enters on its second volume says:

Monday seems to have been an excellent day for accidents on the Carolina Central. Three trains jumped the track on that day between Monroe and Charlotte impeding the right of way and delaying the fast mail due west until 11:30 o'clock, p. m., and the local freight and passenger due at this place 8:10 Tuesday morning, until after nine o'clock. No lives were lost and no one received injury to person; but three box cars were demolished.

The Elizabeth City Carolinian publishes a letter of Gen. Baum the Commissioner of Int. Rev. addressed to Int. Rev. Col. E. A. White of the 2nd District saying:

Sir:—I have received the report of Revenue Agent Marvin upon an examination of your Office made by him on the 2nd instant.

I am gratified to note that your office maintains the highest standard of excellence, being graded number one or first class.

Mr. C. L. Flint, chairman of the Committee on Boston High School, made some very just remarks at the dedication of the Latin and English High School building the other day. He wished, he said, that he could impress upon the minds of parents that the community as a whole is too much inclined to rely on fine schools and instruction to make men of the boys. But these things are not so important as to develop discipline and study at home. Boys are too much inclined to rely on others; they want to be taught and have knowledge poured into them. But we must remember that while schools and colleges give direction we must rely on home influence to stimulate enthusiasm and create love for school and study. You must do something to stimulate the boys, to make them self reliant. These things have often been said, but they cannot be too much enlarged upon. It is in cities especially where men are absorbed in business that they do little in the way of the intellectual and spiritual training of their sons. They have time for stocks and bonds and politics and society, but none to study the character of their boys and to make friends of them. This is one of the burdens of life which they shift on to other shoulders—and it is not strange that the result is often pitiable.

AN IMPORTANT CIRCULAR.

Method of Calling the Next Republican National Convention. The following circular was issued by the Republican National Committee on October 8, 1880:

By Rule 10 of the Convention of June, 1880, it is provided that the Republican National Committee "shall, within the next twelve months, prescribe methods or rules for the selection of delegates to the National Convention to be held in 1884, announce the same to the country, and issue a call for that convention in conformity therewith, provided that such methods or rules shall include and secure to the several congressional districts in the United States the right to elect their own delegates to the National Convention." Preliminary to carrying into effect the foregoing rule, the National Committee, on July 1, 1880, adopted the following:

Resolved, That in order to aid the citizens in carrying out the instructions of the National Convention, to prescribe and announce methods or rules shall include and secure to the several congressional districts in the United States the right to elect their own delegates to the National Convention, and to make friends of them. This is one of the burdens of life which they shift on to other shoulders—and it is not strange that the result is often pitiable.

ruary 1, 1881, and it was also voted that a full meeting of the committee should be called to consider the subject some time in March, 1881. Request is hereby made of the Republicans to whom this circular is sent, and of all others, to forward any plans or suggestions they may desire to make to the officers of the committee, before February 1, 1881.

MARSHALL JEWELL, Chairman,
Geo. W. HOOKER, Assistant Secretary.

The following plans had been previously submitted at the meeting of July 1, 1880:

PLAN OF MR. WILLIAM E. CHANDLER, OF NEW HAMPSHIRE.

The Republican National Convention of 1884 shall consist of four delegates at large from each state and two delegates from each congressional district, all to be chosen at popular conventions in such manner as the Republicans of each state may determine; provided the delegates from each congressional district shall be the choice of the Republicans of that district. The conventions within the states for the election of delegates to the National Convention shall be held at least one month before the time for the meeting of the National Convention. Notices of contests may be given to the National Committee, accompanied by full printed statements of the grounds of contest, which shall also be made public, and preference in the order of hearing and determining contests shall be given by the convention according to the dates of the receipt of such notices and statements by the National Committee.

PLAN OF MR. JOHN A. MARTIN, OF KANSAS.

That the Republican National Convention for 1884 shall be composed as follows: First. Each state shall be entitled to four delegates at large. Second. Each Congressional district shall be entitled to one delegate. Third. In addition to delegates at large, each state shall be entitled to representation in proportion to its Republican vote; that is, one delegate for every 12,000 Republican votes polled for President in 1880, or fraction of over one-half that number.

The meeting of the National Committee has been called at Washington, March 5th, 1880, and Messrs. William E. Chandler, Edward McPherson, and George C. Gorham have been designated as a committee to receive all suggestions that may be made and to prepare and submit a plan at that meeting. The renewed attention of all Republicans is called to this important question, and they are requested to communicate their views at any time before March 1. Editors of Republican papers are requested to publish the circular and plans and to discuss the subject editorially.

Communications may be addressed to either of the Committee at Washington, D. C.

A PAYING OCCUPATION.

The approach of the long winter evenings calls attention to the matter of a lamp, for without a good light half the pleasure or profit is taken from reading or study. Coal oil is now in general use for illuminating purposes outside of cities or large towns where coal gas is used, and when a proper lamp is used it is the best substitute for sunlight yet discovered. The principle or plan upon which the Student Lamp is constructed may be said to be the best in use, but the lamp itself has always had several objectionable features which we are glad to see are being done away with in the new aspirant for favor called the "HOME LAMP," manufactured by the Home Lamp Co. of Cincinnati. The great objection to most other lamps is their liability to be upset, the trouble to keep them in order, and the poor light given by them. The New Home Lamp is Nickel Plated, and almost a fac-simile of the Student Lamp; it has a handsome ornamented clamp by means of which the lamp can be at once easily adjusted in any position upon the center table, piano, music rest, sewing machine, desk, or by means of a handsome bracket, which goes with the lamp, can be placed upon the wall, and in whatever position it is placed it is absolutely safe. This is the great feature of excellence, but the New Home Lamp combines also the patent argand burner, a filling indicator and match box. No lamp has ever before been received with such universal favor or received such strong recommendations from the leading journals of Cincinnati. It is also endorsed by such men as the mayor and postmaster, several insurance presidents and express agents of that city as the safest, most convenient and best lamp made. The Company desires agents in this locality, and any smart lady or gentleman can make a handsome income during the next six months by canvassing for its sale. There is hardly a dozen families in this county who will not want one, and its price is so low as to bring it within the reach of all. For further information address, Home Lamp Co., Cincinnati, O., mentioning our paper and they will give you full particulars and exclusive territory to canvass in.
